REGISTER YOUR SHOOTS

Some gun clubs are under the delusion that registered targets are harder to hit than the other variety. They are not, and all shooters should bear in mind that their national organization, the Amateur Trapshooting Association, is based on this very thing, its main source of revenue being from affiliation and registration fees. Frequently, shoot programs will state that the shoot is "not registered," but that "A.T.A. rules" will be used.

Without a national organization, built up through registrations and affiliations, there would be no "A.T.A. rules," nor any other rules except those of the different clubs, leagues and state associations. How much better are systematic, official, uniform rules for all, secured under national trapshooting government. Therefore, unless there are good local reasons for not doing so—all shoots should be registered, thereby benefiting the club in prestige and the state association and the national body, morally and financially.

REGISTER YOUR SHOOTS

Some gun clubs are under the delusion that registered targets are harder to hit than the other variety. They are not, and all shooters should bear in mind that their national organization, the Amateur Trapshooting Association, is based on this very thing, its main source of revenue being from affiliation and registration fees. Frequently, shoot programs will state that the shoot is "not registered," but that "A.T.A. rules" will be used.

Without a national organization, built up through registrations and affiliations, there would be no "A.T.A. rules," nor any other rules except those of the different clubs, leagues and state associations. How much better are systematic, official, uniform rules for all, secured under national trapshooting government. Therefore, unless there are good local reasons for not doing so—all shoots should be registered, thereby benefiting the club in prestige and the state association and the national body, morally and financially.
